VOCALOID™6

V6.4.0

Read Me First

Thank you very much for purchasing VOCALOID6.

- **Items to check before installation:**
  - Serial Code
    The serial code is described in the email sent when you downloaded and purchased the software.
  - Internet Environment
    You must be connected to the internet to authenticate the package.

- **Notes:**
  - User Licensing
    - This product can only be used by customers who have agreed to the End User License Agreement.
    - Please be sure to read and agree to the License Agreement before installing this product.
  - Operating Environment
    - The operating environment for this product is described on the official website of the product, so be sure to review it before use.
    - Please note that we cannot guarantee proper operation if used in any other operating environment. Additionally, even when used in the operating environment described, it may not be possible to use it due to design specifications and/or usage environments peculiar to various other software and hardware in the environment.
    - Not all operations are guaranteed to work, even in an environment that meets the described conditions.
    - Please be advised that we cannot accept any returns due to issues arising from the environment and other factors beyond our control.
  - Support
    - Please direct inquiries about this product to our dedicated support center.
    - Yamaha's VOCALOID Products Customer Center (https://www.vocaloid.com/en/support/)
  - Manual
    - This manual provides a guide to the installation, authorization, and deauthorization procedures.
    - To see the detailed manual for VOCALOID6, start VOCALOID6 Editor and go to "Help" → "Reference Manual."

Note: Screen shots used in this manual are from macOS 12 and Windows 11.

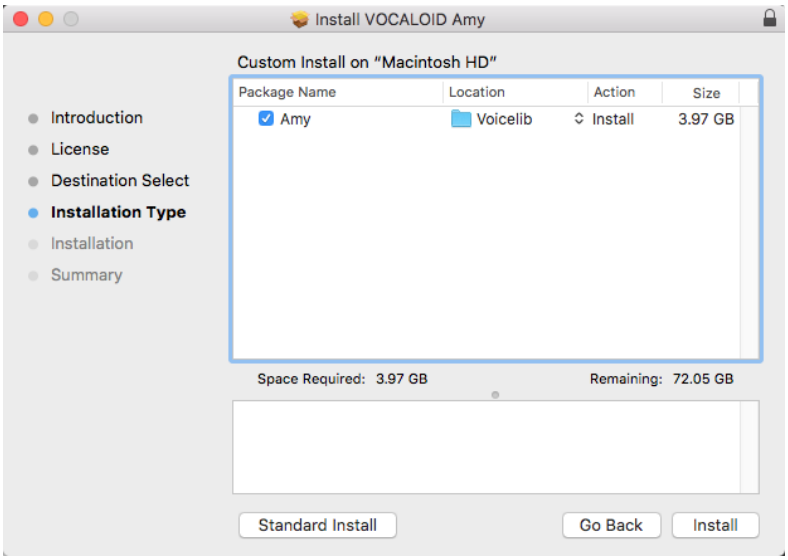
Install

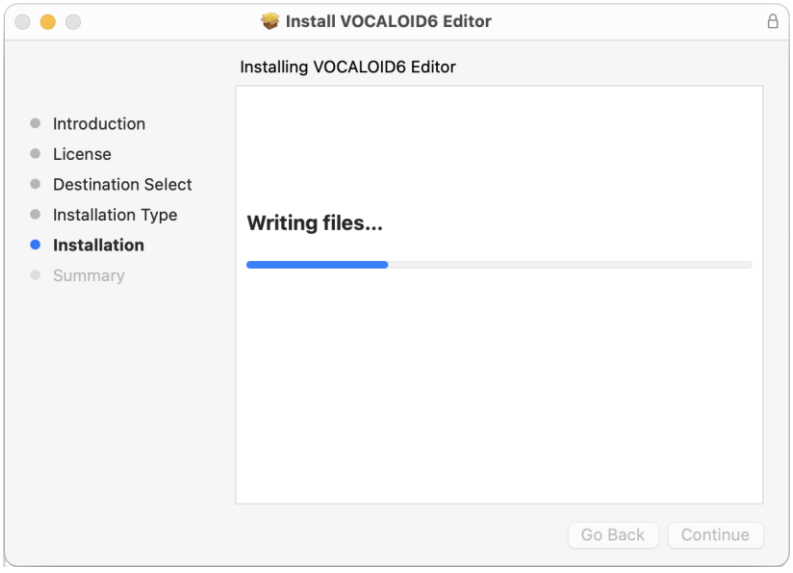
To display customization options:

You can customize what gets installed. Click “Customize” on the left and then select what you want to install.

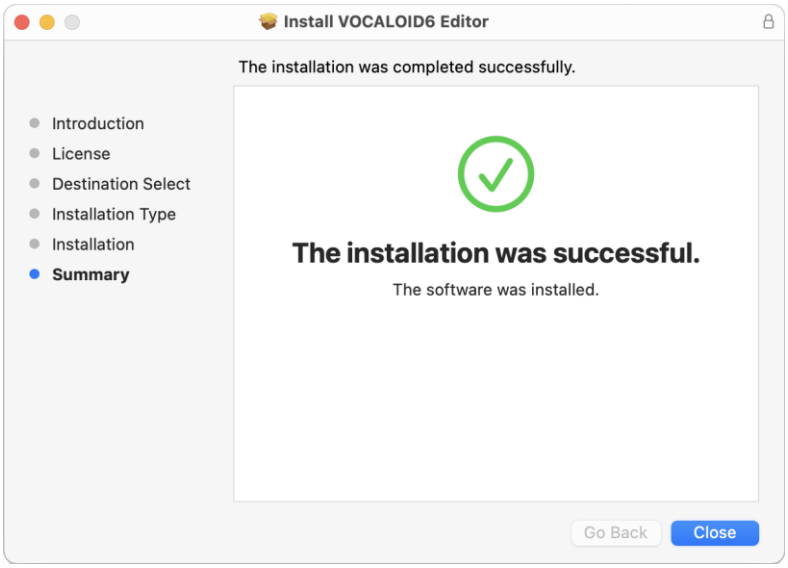


7. **Enter a username and password, and then click “Install Software.”**

Installation begins.



The following window appears when installation finishes.



This completes installation. Repeat the procedure above until the installation of all the files is complete.

Authorization

Authorization

In order to use VOCALOID6, authorize the package after installing the files by accessing the VOCALOID authorization server via the internet. Although VOCALOID6 can be used for a certain period without activating it, it can no longer be used once that period expires. Be sure to authorize the software to continue to use it.

Notes on Authorization

Your computer must be connected to the internet to perform authorization.

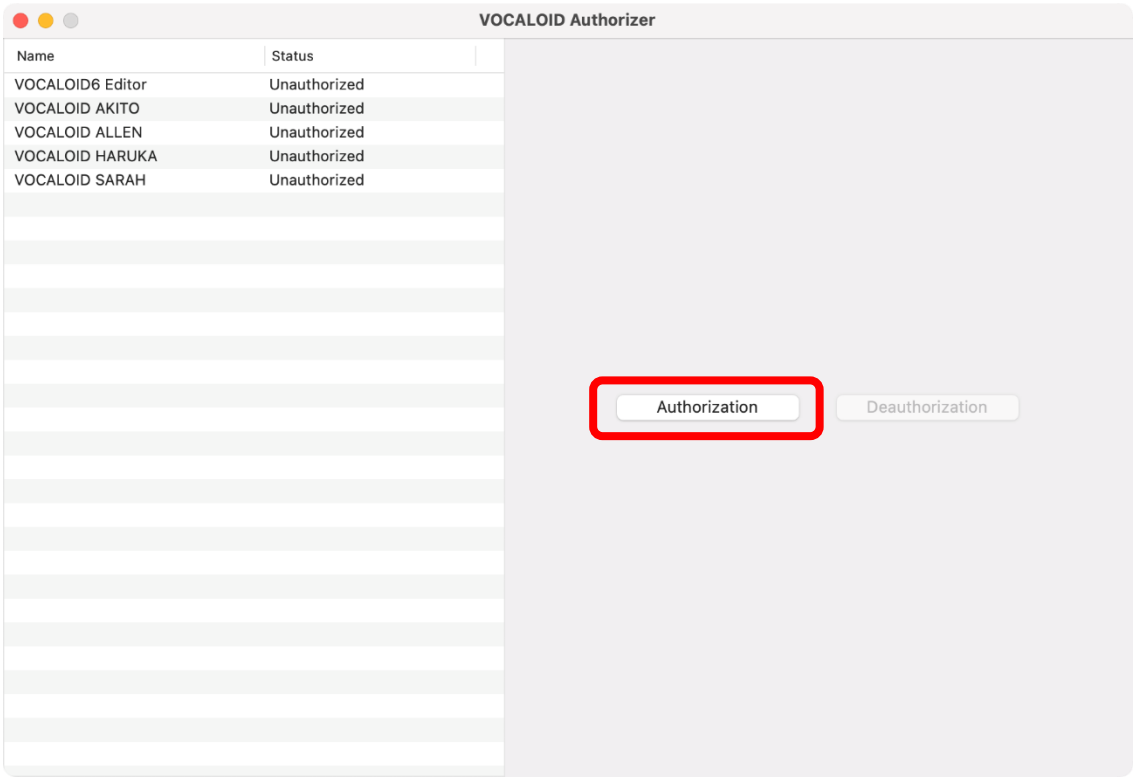
If the computer VOCALOID6 is installed on is connected to the internet:	If the computer VOCALOID6 is installed on is not connected to the internet:
You can perform authorization as-is on the computer on which VOCALOID6 was installed. For details, see the online authorization procedures below.	Use a different computer, which is connected to the internet, to perform authorization. Start VOCALOID Authorizer and click “Authorization.” Then click the “Authorization (Offline)” tab and follow the on-screen instructions to authorize VOCALOID offline. Start VOCALOID Authorizer, and make sure it is on the tabs “Authorization” → “Offline.” Follow the on-screen operating procedure to perform “Offline Authorization Procedure.”

Online Authorization Procedure

1. **Start VOCALOID Authorizer.**

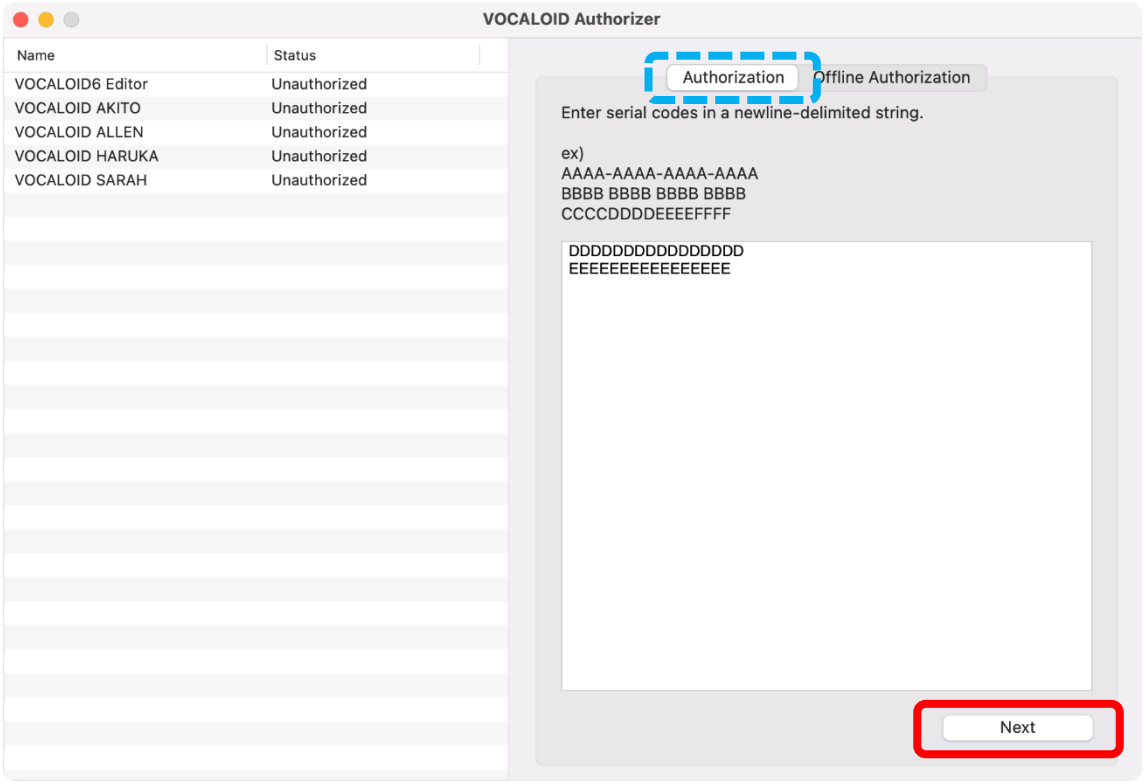
* If you have installed products before VOCALOID4, a dialog box appears with the message, "VOCALOID Authorizer is trying to install a new helper tool." Please install the helper tool.

2. **Click “Authorization.”**

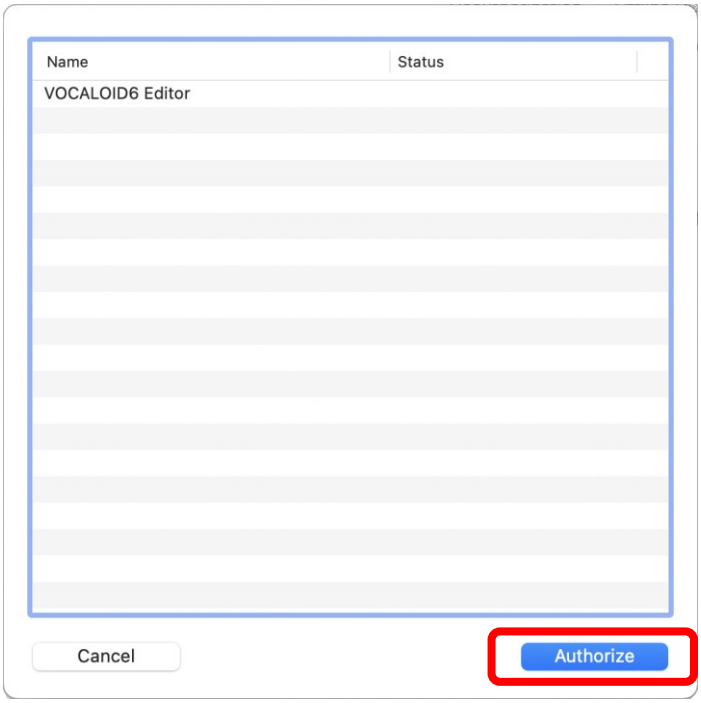


3. **Make sure the “Authorization” tab is displayed.**
4. **Enter the serial code and click “Next.”**

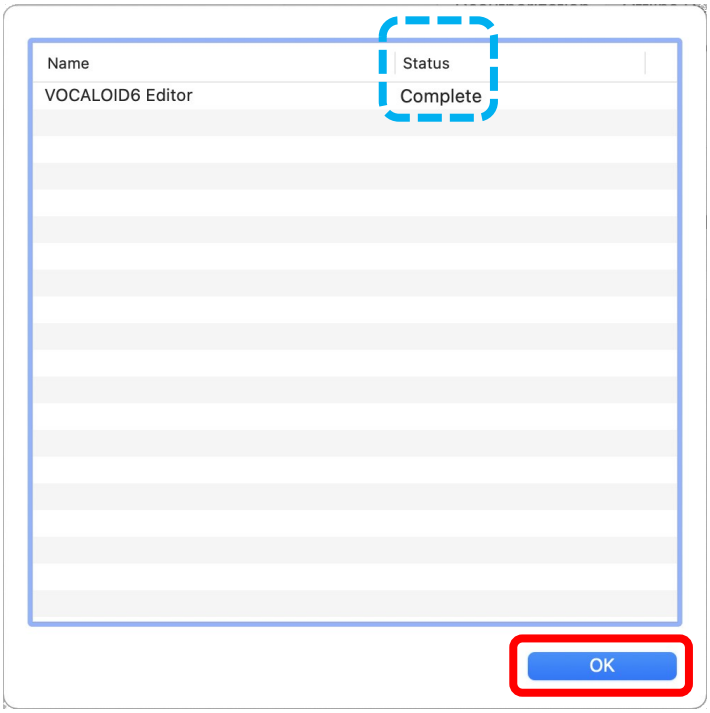
Several serial codes can be authorized at the same time by entering them as shown below.



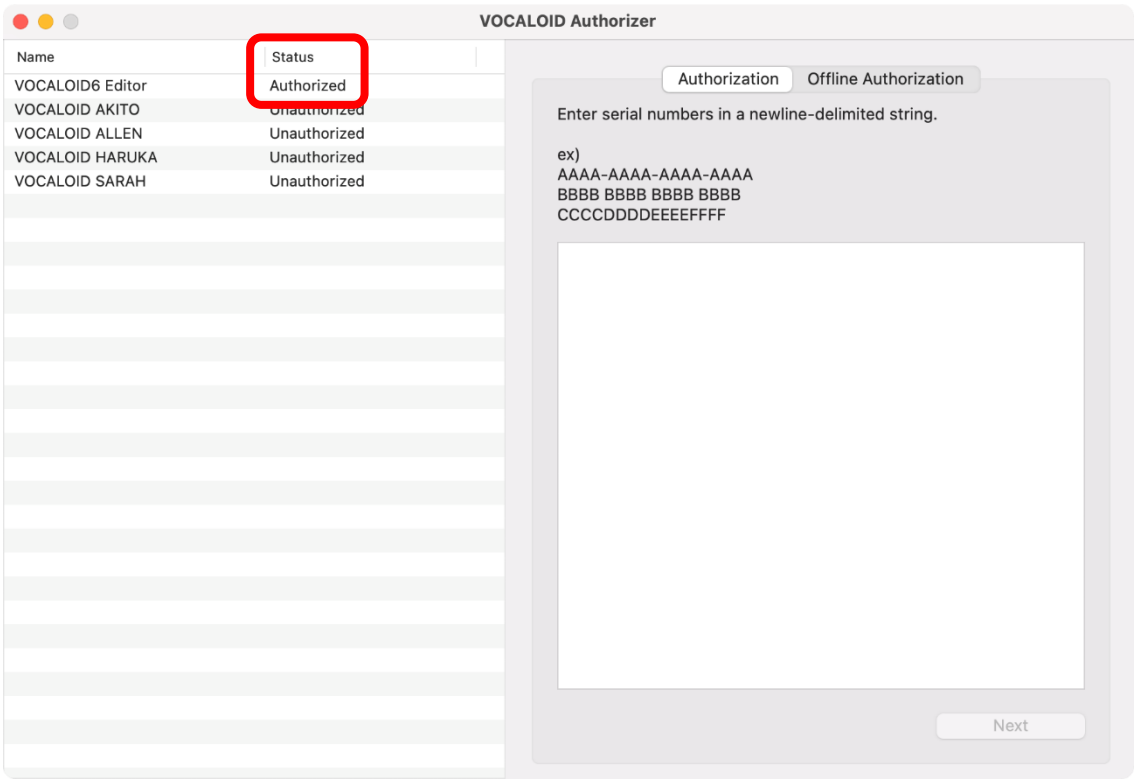
5. **Check the names of components to be authorized and click “Authorize.”**



6. **Check and make sure the status in the list is “Complete,” and then click “OK.”**



7. **Make sure the status of the components is “Authorized.”**

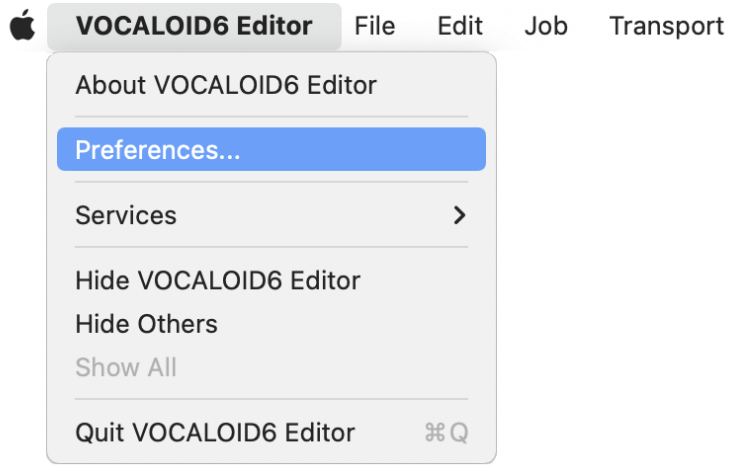


This completes the online authorization procedure. Close VOCALOID Authorizer.

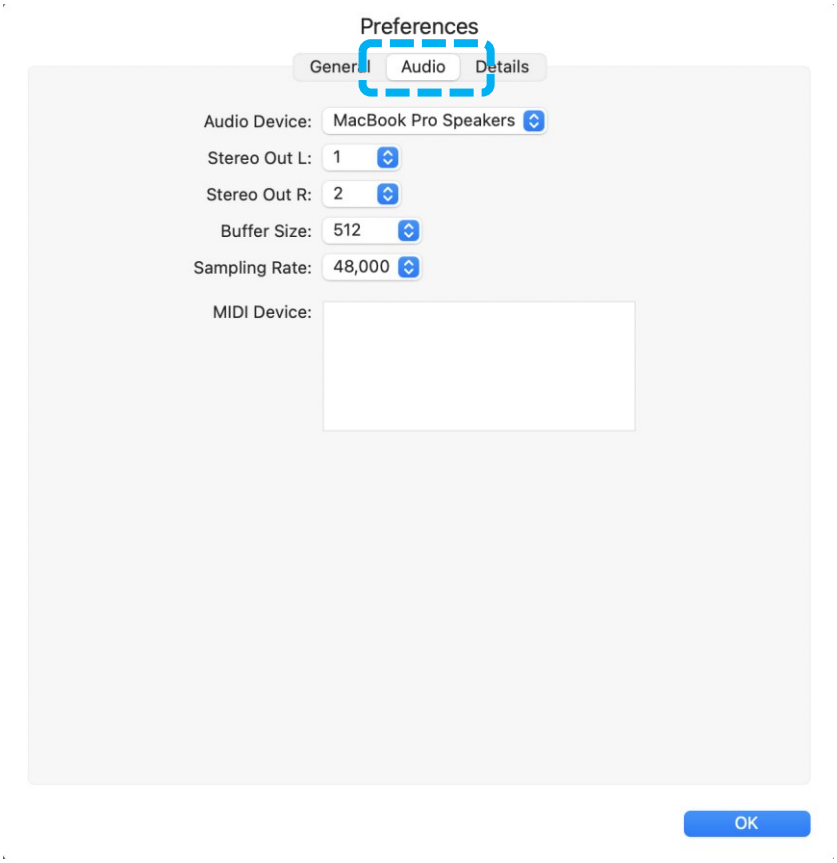
Audio Device Settings

1. **Start VOCALOID6 Editor.**
2. **On the menu, select “VOCALOID6 Editor” → “Preferences….”**

   The Preferences dialog appears.



3. **Configure the settings on the Audio tab for the Audio Device and Stereo Out L & R parameters applicable to your device.**



This completes the audio device settings.

Deauthorization (Restoring Authorization Data)

Be sure to deauthorize VOCALOID6 prior to uninstalling it.

If you uninstall the software without first deauthorizing it, you will not be able to authorize it if you install VOCALOID6 on a new computer.

Notes on Deauthorization

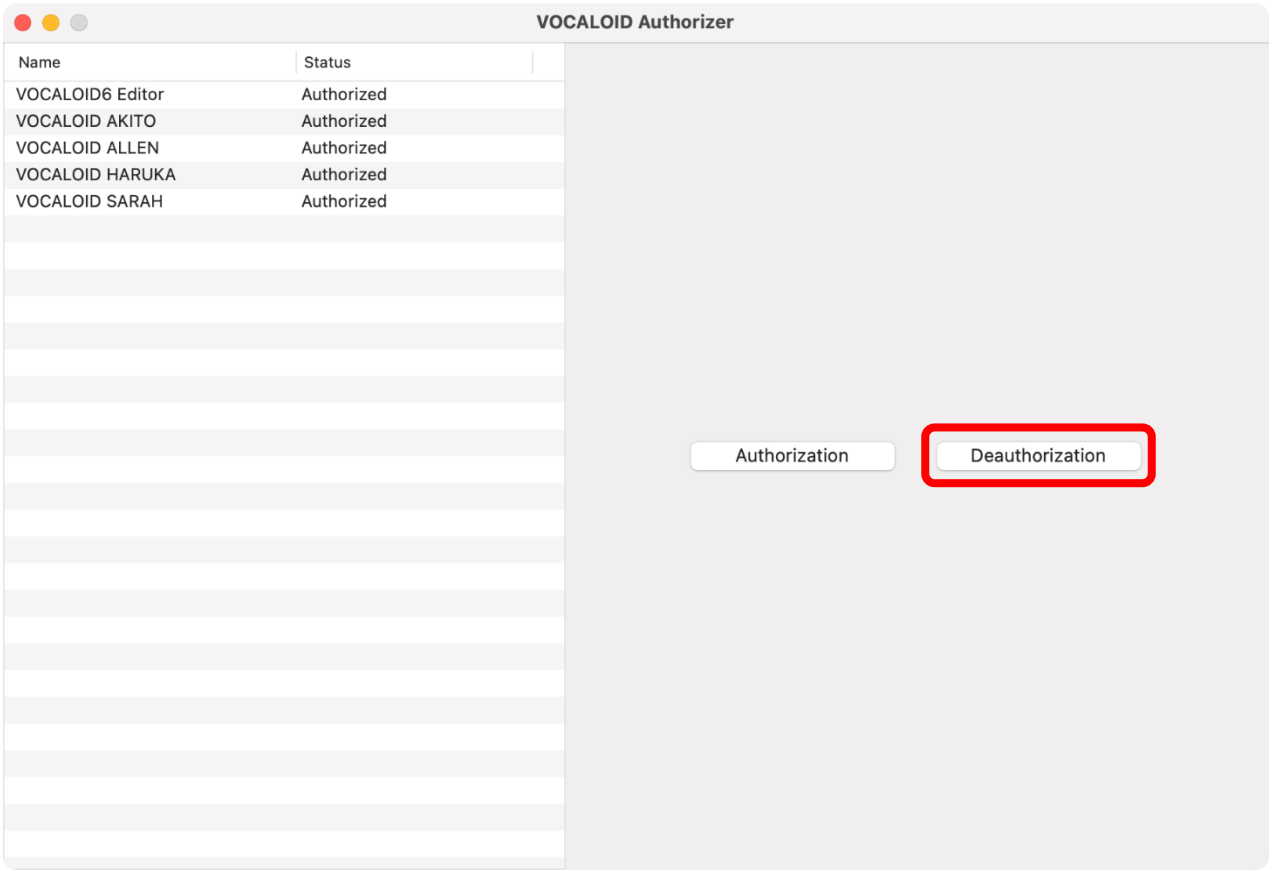
Your computer must be connected to the internet to perform deauthorization.

If the computer VOCALOID6 is installed on is connected to the internet:	If the computer VOCALOID6 is installed on is not connected to the internet:
You can perform deauthorization as-is on the computer on which VOCALOID6 was installed. For details, see the online deauthorization procedures below.	Use a different computer, which is connected to the internet, to perform deauthorization. Start VOCALOID Authorizer and click “Deauthorization.” Then click the “Deauthorization (Offline)” tab and follow the on-screen instructions to deauthorize VOCALOID offline.

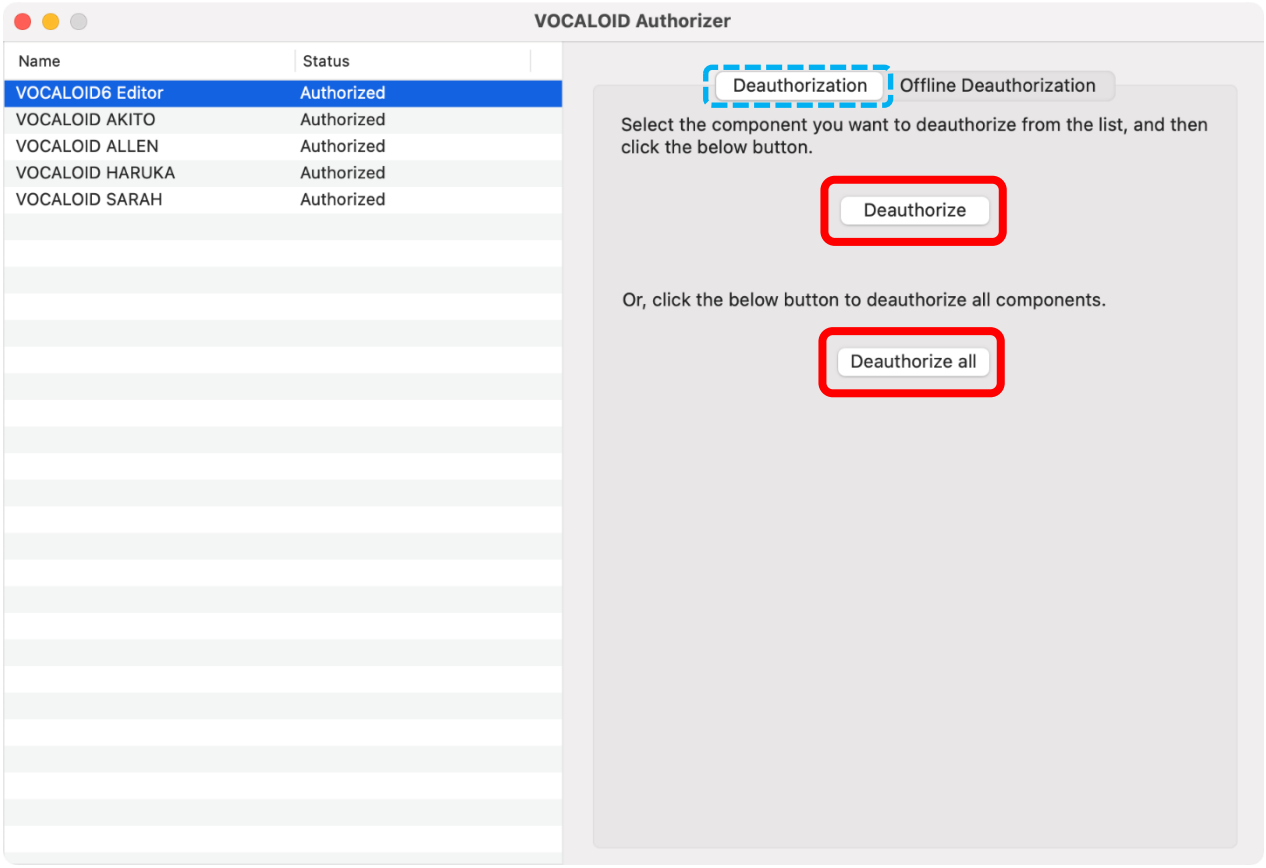
Online Deauthorization Procedure

1. **Start VOCALOID Authorizer.**

2. **Click “Deauthorization.”**

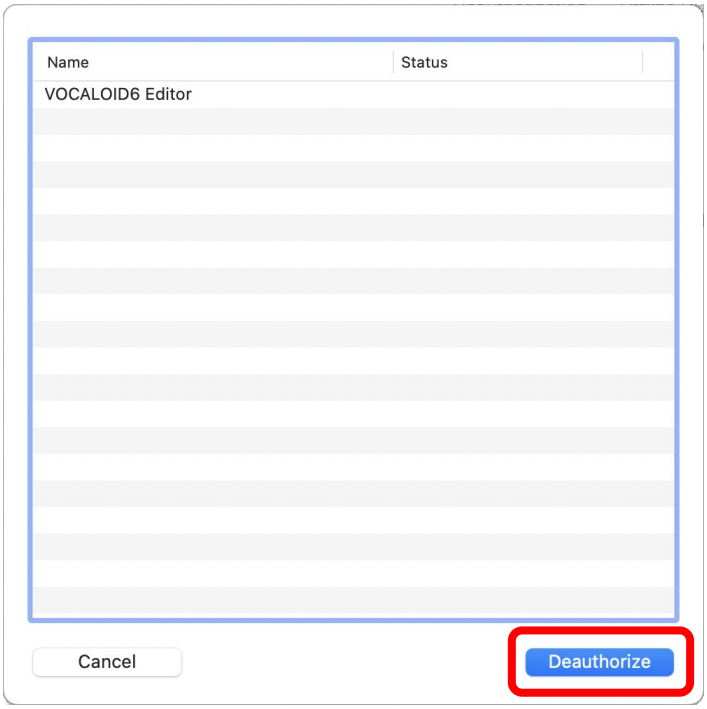


3. **Make sure the “Deauthorization” tab is displayed.**
4. **Select the components you wish to deauthorize and then click “Deauthorize.”**

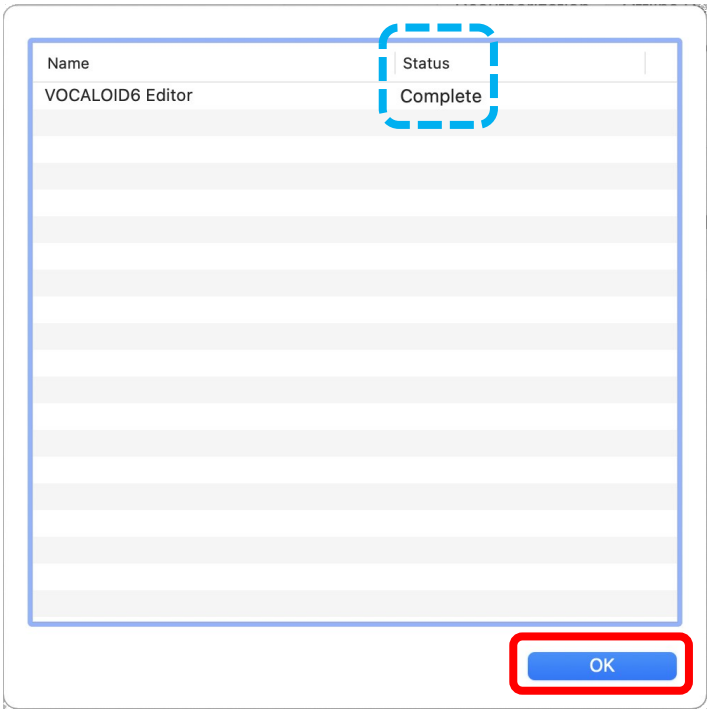


If you wish to deauthorize all components, click “Deauthorize all.”

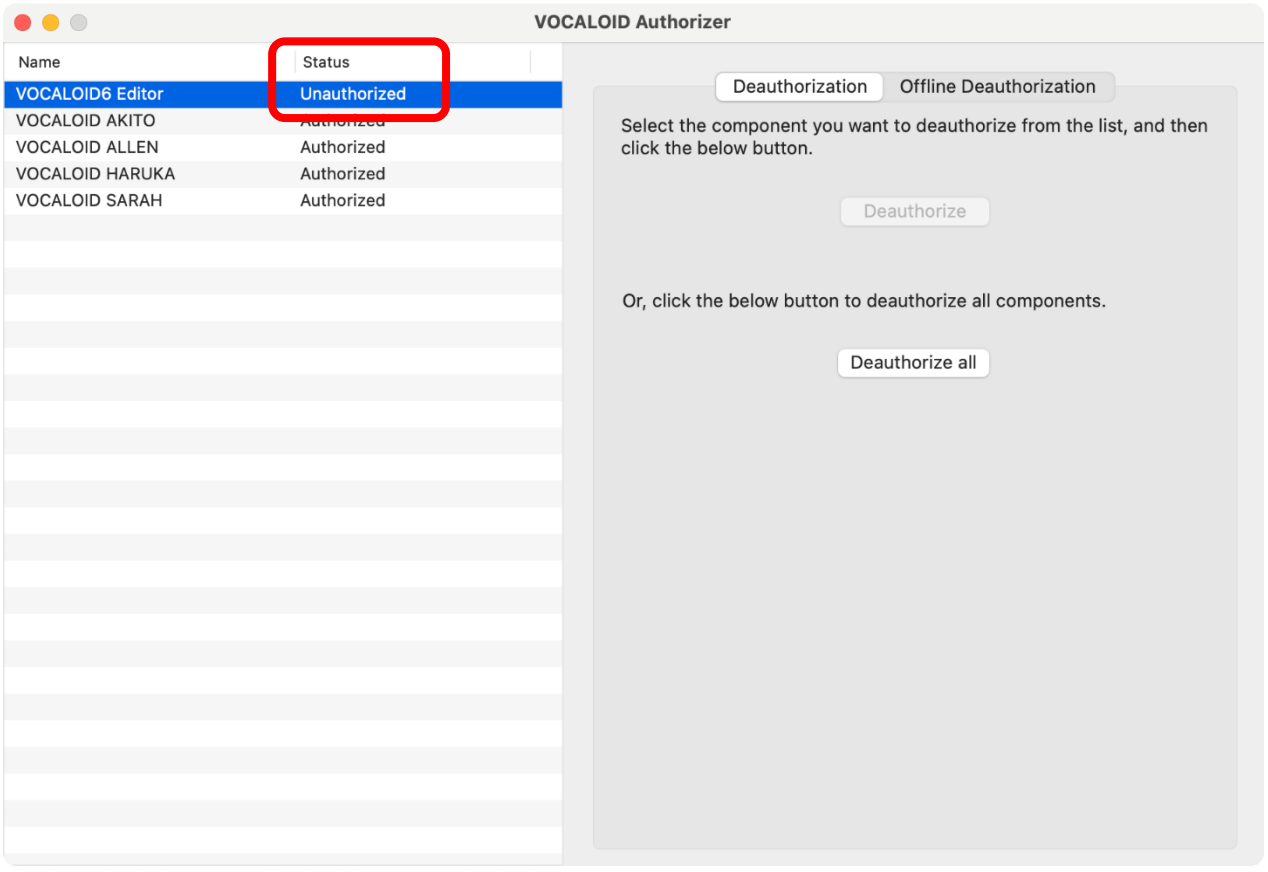
5. **Check the content in the list and click “Deauthorize.”**



6. **Make sure the status in the list is “Complete,” and then click “OK.”**



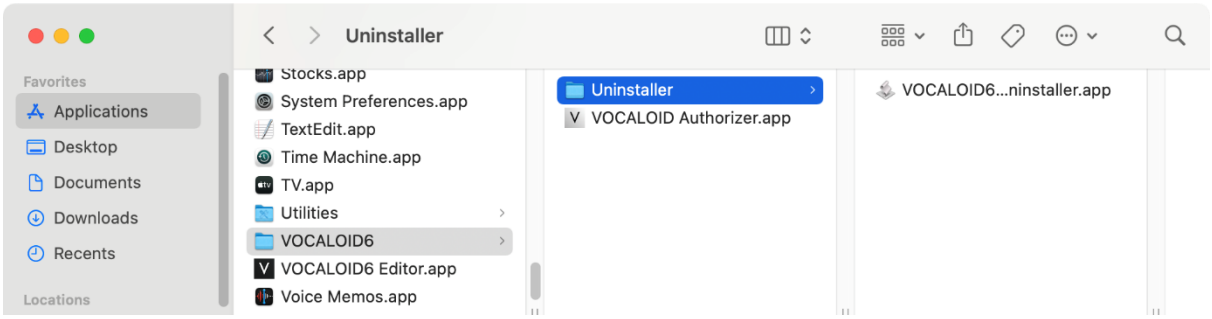
7. **Make sure the status of the components is “Unauthorized.”**



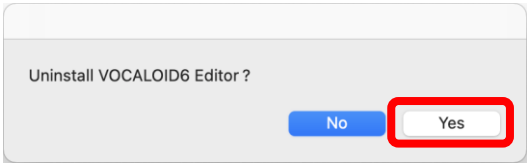
This completes the online deauthorization procedure. Close VOCALOID Authorizer.

Uninstallation

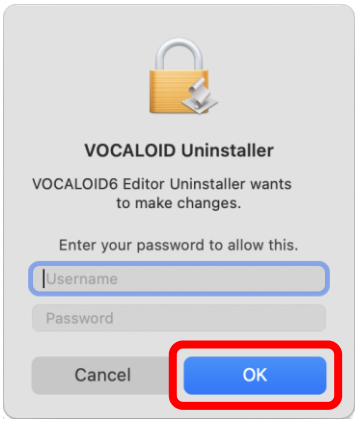
1. **The uninstaller for components like VOCALOID6 Editor and Voicebank is in the below folder under “Applications.”**



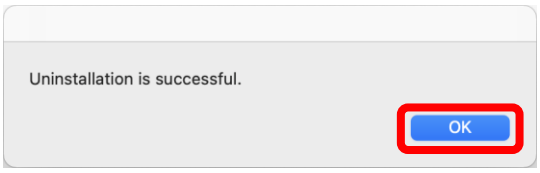
2. **Start the uninstaller, and then click “Yes.”**



3. **Enter a username and password, and then click “OK.”**



4. **Click “OK.”**



This completes uninstallation.
